Harpal Dhaliwal,
President,
Education Invention Centre of Canada
27, Strathearn Avenue, Unit 1,
Brampton, On L6T 4V5

Dear Harpal;

I understand that Education Invention Centre of Canada (EICC) is running and managing Algoma University Campus in Brampton.

Algoma University is offering accelerated degree programs at its Brampton Campus. These programs can be joined by those who already hold one undergraduate degree or diploma from Canadian community college.

This project can play a vital role in providing much needed facilities and resources to individuals, especially new immigrants, looking to upgrade their education whose back home credentials are not compatible with the Canadian education system. These facilities will certainly improve their chances to gain Canadian experience and get into the Canadian job market on a fast track.

Further having a university Campus in Brampton will go a long way in alleviating commuting difficulties of students of Brampton who have to travel far off places to gain university education since Brampton does not have any other university campus.

It is a pleasure to support EICC with this project that is dedicated to address immediate needs of new immigrants. I am, therefore, happy to commend and support this project.

Yours truly

A handwritten signature in blue ink that reads 'Bob Callahan'.
